Certified Product Manager

CORE COMPETENCIES

- Product Strategy
- Product Life Cycle Management
- AI/ML - Driven Product Innovation
- Agile & Scrum Product Leadership
- Market Research
- Competitive Analysis
- Customer Experience
- Workshop
- Business analytics
- Go - To - Market Strategy
- Data Driven Decision Making
- Pricing & Growth Strategy
- Strategic Project Planning
- Stakeholder Coordination
- Requirement Gathering

DATA PROFICIENCY

- Random Forest
- Decision Tree
- Logistic Regression
- Linear Regression
- XG Boost
- Time Series
- LSTM
- RAG & LLM

IT SKILLS

- Python
- SQL
- Oracle
- Microsoft Power BI
- Power Automate
- Terra data
- JIRA
- Dataiku
- Autosys
- Figma

EDUCATION

MTech | Data Science and Engineering

BITS Pilani, Goa, India
2022

Post Graduate Diploma

Symbiosis, Pune, India
2015

Bachelor of Engineering

Sathyabama University,
Chennai, India
2012

PUBLICATIONS

"Data Characteristic Stability Based Random Forest Implementation of Credit Card Fraud Detection" at the 5th International Conference on Contemporary Computing and Informatics | **IEEE 2022 : 10073027**

PROFILE SUMMARY

- Adept in **interpreting business landscape** and **streamlining machine learning and analytical systems** in coordination with senior management & project teams
- lead digital transformation** for the bank Integrating **Machine Learning** Solution in Application system, Enhancing **operational efficiency and regulatory compliance**.
- Expertise in driving **AI-powered product development**, overseeing **end-to-end life cycle management** of data-driven solutions, including **automation, visualization, & predictive analytics**
- Proficient in **wire-framing and prototyping**, translating **business requirements into intuitive product designs** that enhance user experience and functionality
- Skilled in **machine learning techniques** such as **Propensity Model, Fraud Model, Pricing model, Cash Rate forecasting, Payer Churn prediction & Collection Invoice prioritization**
- Experienced in **defect tracking, defect management, scrum, retrospective, sprint planning, and backlog prioritization** processes

PROFESSIONAL EXPERIENCE

Senior Manager | Sep 2021 – Dec 2023 & Oct 2025 – Till Now

standard
chartered

Satndard Chartered GBS

Highlights:

- Drove end-to-end campaign launch of an AI-powered Price Elasticity engine across 42 markets, defining vision, success metrics, and roll-out strategy, delivering \$25M incremental revenue.
- Led backlog prioritization, sprint planning, and roadmap execution for a data-driven repricing platform across 42 markets, delivering \$18M incremental profit
- Product Owner driving ML-based fraud detection roll-out across 21 countries with Random Forest, prioritizing use cases and delivery.
- Owning Rule-to-Model migration for Financial Crime Surveillance across 21 markets, steering backlog and adoption, model governance and post model management.

Manager | Jan 2024 – Oct 2025

Wells Fargo

Highlights:

- Successfully led a Product ideation for complaint management system through AI Letter / Email Assist based on machine learning model across Credit Card, Auto Loan and Deposits which achieved surplus & Incremental profit Revenue of \$29M

- Adroit in communicating with IT team, analysts, and stakeholders while transferring knowledge to the Project and Development team.
- Resourcefully undertake feasibility studies, conduct research, compile market-trends , produce a detailed analysis of key competitor projects and present findings
- Experienced in project-level analysis required through business, system requirements, scope matrix, use cases, sequence diagrams, future state proposals and UAT plan

Deputy Manager | May 2020 – Aug 2021

HCL Technologies

Highlights:

- Ideated the development of in-house collection analytics product
- Operated as product specialist for end to end collections analytics in house product, identified diverse use case and implemented machine learning technique. Held presentation, proposals, RFP's.
- Integrated diverse use cases by deploying machine learning methods; Cash Rate forecasting (random forest algorithm), Payer Churn prediction (Logistic Regression) and Collection Invoice prioritization (XGBoost as Rest API) respectively
- Sales support in translating complex technical themes to understandable and compelling content
- Developed proposals by project objective, implement plans, resources, budget, writing, revising and editing drafts including executive summaries and conclusions
- Collaborated with sales team, solutions architects, and specialists to support the technical solution and articulating business value for clients
- Managed employees through training, mentoring and developing repeatable analytic approaches

Senior Data Scientist | May 2019 – May 2020

INCEDO INC

Highlights:

- Generated Machine learning centred propensity for campaign with customer life events and global events including Birthdays, Anniversary, back to school and many others
- Developed machine learning based pipe line for Customer intent Identification within real time 3 clicks using LSTM Methodology
- Created a Data Pipeline and implemented a sales funnel dashboard in power BI for Abandoned cart and dropped out system

Associate | May 2018 – May 2019

Royal Bank Of Scotland

Highlights:

- Led a Automation that resulted in the saving of \$250 K / PA in Credit Risk management process in identifying partially terminated transaction with Machine learning.

System Engineer | Feb 2016 – May 2018

Tata Consultancy Services

Highlights:

- Efficaciously developed 40+ marketing and risk analysis reports to support Credit Risk Management decisions.
- Created Machine learning Pipeline to identify the anomaly using isolation forest algorithm.

Senior System Executive | Mar 2013 – Feb 2016 (break Sep 2013 – Jun 2014)

Cognizant Technology Solutions

Highlights:

- Measured sales metrics for all seasonal sale & daily sales using Python and SQL Analytical function.
- Deployed dashboards using Power BI and generated insights for the Seasonal sales and marketing campaigns.

DIVERSIFIED DOMAINS

- Banking and Finance
- Telecommunication
- Energy and utilities
- Retail
- Collections
- Health Care
- Fraud Risk Management
- Credit Risk Management
- Transaction Banking
- Retail Banking
- Revenue Management
- Pricing
- Product Management
